DD/A/ODP WEEKLY REPORT

Week of 21-28 January 1981

I. Major Activities During the Past Week:

A. Support to the Community:

REGISTRY (The IC Staff Registry System) The COMREG GIM II data base has been accepted by the customer as complete.

25X1 [REDACTED]

B. Support to PTO:

CAMS (COMIREX Automated Management System) A version of the CAMS interactive graphics software (CAMSTACK) was converted to execute under MVS and to access the RAMIS data base and the World Data Banks. The next phase of interactive graphics development will take place on the graphic terminals as soon as Engineering Division provides the necessary switching characters. [REDACTED]

25X1

C. Support to O/COMPT:

ZBB (Zero-Based Budgeting) An additional training class for users of the ZBB Ranking System was conducted by D Division. User offices will be able to request videotapes of the course from the Media Center or from ODP's Training Staff. [REDACTED]

25X1

D. Support to OF:

FRS (Financial Resources System) The FRS data bases have been initialized for the start of the 1983 Program Exercise. It is anticipated that the update menus will be opened as of 2 February. [REDACTED]

25X1

E. Support to OSO:

LADS (Logistics Automated Data System) LADS continues on schedule. On 6 January 1981, we successfully installed two Micro-data Royale Minicomputers for test acceptance at an OSO [REDACTED] field station. [REDACTED]

25X1

25X1

Upon acceptance of hardware and system software by OSO, the minicomputers will be relocated to an OSO field station. Final installation is scheduled for 18 February 1981. ODP will continue to provide system training and application support through 31 March 1981. [REDACTED]
